Guidelines for installing Devanagari Input

Mac OS X users

Select System Preferences from Apple menu bar.

Select Language & Region in System Preferences.
Click on Keyboard Preferences in Language & Region.

Under the Input Source tab click on the ‘+’ button.
Type “Devanagari” in the below textbox.

Select both “Devanagari” and “Devanagari-QWERTY” then click on Add.
In the title bar select the preferred input method and start typing.
